

# Wyoming Frontier Information (WYFI) Newsletter October 2023

---

## eHealth Exchange

Exciting news for the WYFI Team. We are in the final stages of moving to production with the eHealth exchange. Watch for details on the connection next month.

## WYFI News

### Policy and Procedure Manual

The WYFI Policy and Procedure Manual has been updated and can be found on our website. There will be additional updates made in the coming weeks. We will let you know when the changes occur.

### WYFI Upgrade Survey

The WYFI team is conducting a survey of the Community Health Record (CHR) users to identify what is going well and what users would like to see in the upcoming upgrade of the system. Please see the link below and let us know your thoughts! Copy the link below into a web browser to view.

## WYFI Data Contributors

The Wyoming Frontier Information (WYFI) program is reaching out to data contributors regarding Protected Health Information (PHI) or Personally Identifiable Information (PII) requiring special protection. As you know, some patient information may be subject to special protection and should not be shared due to state or federal laws, or as outlined in the WYFI Policy and Procedure Manual, section 401.

We ask that all data contributors review the information being shared to ensure the following data is not sent to WYFI:

- Mental health admission and treatment notes
- Substance abuse information
- STD testing results (including HIV testing)
- Protective custody notes
- Predictive genetic testing performed for genetic counseling purposes

- Diagnosis and treatment of minors due to suspected abuse by a parent, guardian, or personal representative

We appreciate your contributions to the WYFI system. Thank you for ensuring the information that is shared complies with federal and state regulations, as well as the WYFI Policy and Procedure manual. If you have questions or concerns, please email our team at [wdh-wyfi-hie@wyo.gov](mailto:wdh-wyfi-hie@wyo.gov) for assistance.

### WYFI Stats

Patient Encounters

8,554,979

Covered Lives

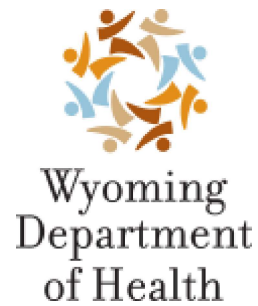

704,507

CHR Users

5,450
