WYFI Participants Reminder

WYFI Data Contributors:

Please make sure that you let us know if you are changing Electronic Health Record (EHR) vendors. It is important to let us know so that we can coordinate with the new EHR vendor to make sure that our connection with data contributors is not disrupted.

If there is a change of EHR vendor, the WYFI team will coordinate with our Health Catalyst vendor to get the technical work started. It could take a significant amount of time to get the project kicked off. By letting us know early we can avoid any delays with our connected participants.
